Hello, M\_\_\_\_\_

I am taking over as graduate coordinator of English, so I wanted to send you a quick email with some info. It looks like things aren't going so well this semester, if midterm grades are a good indication?

Attached is the file I will be using to keep track of your degree progress. You may notice there are \*three\* different options: the new Plan 1, for PhD preparation; the new Plan 2, more for personal enrichment; and the old degree plan. You can follow whichever one you like, especially since you've been here a while, although we will start offering a lot more of the new-plan courses starting this summer.

I think Dr. Palmer has alerted you already to the need to put in an official application for candidacy in the program, but I'm attaching that file as well, just in case.

You can find me in Hilliard Hall 213, and I look forward to working with you as you finish your Masters degree.

Sarah Wakefield  
Associate Professor of English
