

THE LEADER IN COLLEGE HEALTH INFORMATION SYSTEMS

## MEDICAT OVERVIEW

# College Health System Overview

One Solution to Increase Quality of Care, Patient Safety and Staff Productivity

### Electronic Medical Records (EMR)

#### Intuitive, Easy-to-Use Clinical Tool for Managing Patient Health

- Systematically aligns protocols to improve quality of care
- Improves clinical workflow and staff productivity
- Patient data flows to the chart in real time from anywhere in the clinic
- Alerts on pending patient-specific care items, referrals and follow-ups
- Order and result interfaces for Lab, Pharmacy, and Radiology
- Ensures accurate reporting and documentation
- Easy access to Patient Education and Clinical Reference material
- HIPAA-compliant secure messaging with patients or among staff
- Extensive and flexible Clinical Analysis capabilities
- Access to Medicat's National Client Template Library

### Practice Management (PM)

#### The "Gold Standard" for College Health Center Management

- Uploads registration and financial data from the Registrar and Bursar
- Immediate access to patient demographics and eligibility status
- Flexible appointment scheduler with email reminders
- Automatically generates accurate walkout statements
- Processes claims electronically for third party payment
- Comprehensive inventory management
- Detailed financial management capabilities and reporting

### Online Student Health (OSH)

#### Dramatically Reduces Routine Tasks & Data Entry

The Student:

- Self schedules appointment for designated time and type

"Since we started using Medicat EMR, the stress level in my job has gone down about 90%! The immunization process and the lab results are excellent, easy to access and to use when giving patient care. I could not imagine going back to the way we were!"

**Bonnie White**  
Registered Nurse  
Montana State University

- Updates demographic and insurance data
- Completes medical history and intake forms by type of visit
- Enters immunization history for easy verification by staff
- Requests prescription refills
- Reviews billing statements

- Information flows immediately and seamlessly to the patient chart
- Securely notifies the patient of required tests, exams or follow-ups
- Enables confidential communication between the patient and provider

### **Self Check-In (SCI)**

#### **Fast, Efficient & Confidential Check-In**

The Student:

- Verifies identity, demographics and insurance coverage
- Completes medical history or intake forms (if not finished Online)
- Digitally signs privacy, consent or other forms
- May schedule a walk-in appointment

- Relieves staff of routine check-in, appointment and triage tasks
- Preserves student confidentiality
- Triage is automatically notified when check-in completed

### **Immunization Compliance Manager (ICM)**

#### **Fully Automated, Immunization Compliance Management**

- Automates the most complex requirements
- Fully integrated with patient history and chart
- Sends compliance information to Registrar
- Provides compliance alerts by individual or group
- Easily customized to campus or state regulations by subgroup
- Automatically generates and then documents patient follow-up
- Quickly produces compliance lists in a health emergency

### **Clinical Protocol Manager (CPM)**

#### **Improving Quality of Care and Patient Safety**

- Manages complex clinical protocols and patient follow-up
- Eliminates log books, ticklers, card files and manual letters
- Embeds clinical protocols in the workflow, automating flow sheets
- Protocol-Builder empowers clients to easily create custom protocols
- Automatically prints reminder letters or sends secure messages
- Automated follow-up alerts to providers in real time
- Dramatic savings in staff time while improving Quality Assurance

## MediCAPS

### Supporting Counseling and Psychological Services

- Risk based or behavioral alerts promote student safety
- Robust appointment scheduling includes group sessions
- Restricted access and auditing ensures strict confidentiality
- Automated psych intake forms maximize staff efficiency
- Documentation includes AXIS-based progress notes
- Access to designated medical data facilitates counseling
