Project OPERATION XLR8 (ACCELERATE)

A Gates/Marshall Redesign Program

BILL & MELINDA
GATES foundation

Funded by Thurgood Marshall College Fund with support from Bill & Melinda Gates Foundation

How is Project XLR8 addressing these complex issues?

- **Customizing learning environments to individual student's preparatory needs and goals.**
- **Empowering the teachers to go beyond minimal standards in designing and implementing a relevant curriculum.**
- **Setting and implementing uniform rigor in science and mathematics requirements. For example, consumer math cannot be a substitute for calculus or technology for physics.**
- **Involving students, parents and community in the redesign process.**
