

Texas A&M University System Risk & Misconduct Hotline

Attention! This web page is hosted on EthicsPoint's secure servers and is not part of the Texas A&M University System web site or intranet.

Letter from the Chancellor

The responsibility for achieving The Texas A&M University System mission of teaching, research and outreach carries with it the duty to adhere to the highest ethical standards and principles. In recognizing our obligation to our students, employees, and other stakeholders to maintain these ethical principles and standards, the A&M System has established the Risk and Misconduct Hotline. The hotline is a phone and web-based reporting system that provides a way to anonymously report instances of suspected wrongdoing.

Every person, regardless of position, shares in the responsibility for promoting an ethical and safe environment. If you have factual information suggestive of wrongdoings by any A&M System member, employee, student, or other affiliate, we want you to report it. Examples of reportable issues include misuse of A&M System property, information or resources, violations of safety rules or environmental laws, theft, conflicts of interest, NCAA violations or discrimination.

We would like you to resolve concerns through established institution/agency channels whenever possible, but we recognize that this is not always an option. In such circumstances, we encourage you to utilize the Risk and Misconduct Hotline so that we may properly address your concerns. We have selected EthicsPoint, a private contractor, to provide this reporting service for all members of the A&M System community.

The Risk and Misconduct Hotline is operated 24 hours a day, 365 days a year. Reports submitted through EthicsPoint will be forwarded to the appropriate institution or agency officials
