

# Hazardous Waste Management Program

## 1. GENERAL

The purpose of a hazardous waste management program is to comply with all local, state, and federal regulations on the proper collection, storage, and disposal of hazardous waste and prompt personnel safety and environmental preservation associated with hazardous waste management activities.

The Texas Natural Resource Conservation Commission and the Environmental Protection Agency administers the regulations and laws for the proper management of hazardous waste.

## 2. REQUIREMENTS

2.1 Each component shall adopt programs and procedures as required for the proper management of hazardous waste as required by the Texas Administrative Code (Title 30, Chapter 335), the Code of Federal Regulations (Title 40, Part 260 to Part 299), and other applicable state and federal regulations.

2.2 Such programs and procedures should include provisions for monitoring compliance with the Federal and State laws. Compliance monitoring should include, at a minimum, reviews of the written management plan, hazardous waste management records, and facility inspections.
