The academic year is divided into two semesters of eighteen weeks each. Generally, one semester hour of credit is given for each hour per week of classroom work during a semester. The summer session is nine weeks in length. Generally, three semester hours of credit are given for five hours of classroom work per week for the nine weeks. The average student load varies between nine and fifteen semester hours per semester. Generally, the course requirements for graduation are the completion of at least twenty-four semester hours of graduate work at Atlanta University with grades of A — B. The academic credit unit used is the semester hour.
